

# EXXOS STORE DFB1 SPECIAL LIMITED LICENCE 2023

Licence is granted by D Henderson ('The Primary Author') and Stephen Leary (together, 'The Authors') to Chris Swinson ('The Licensee') to market and sell products (the 'Derived Products') derived from The Primary Author's 'DFB' Github repository<sup>1</sup> at release 1.0 as published, or commit d8941cc<sup>2</sup>, without the need to publish his source code or hardware design files.

This licence (the 'Special Limited Licence') imposes the following terms:

- 1) The Derived Products are only offered for sale on a single store, namely the 'Exxos Store' or its direct successor;
- 2) The Derived Products carry an Exxos-owned logo which is not made available to others beyond the production environment.

Furthermore:

- 3) The Special Limited Licence does not apply to other users' GitHub forks;
- 4) The Authors affirm the exclusivity of this Special Limited Licence to The Licensee until its expiry.
- 5) The Licensee may withdraw from this Special Limited Licence agreement at any time, whereupon it will be deemed to have expired;
- 6) Either of The Authors may give notice in writing of their intent to withdraw from the Special Limited Licence. Withdrawal by one or both of The Authors, if notified, will result in the expiry of the Special Limited Licence 12 MONTHS after the notice is issued or FOUR YEARS after initial publication of the Special Limited Licence, whichever occurs later;
- 7) Upon expiry of this Special Limited Licence either
  - a) the source for the Derived Products must be published or otherwise made generally available upon demand, or
  - b) the Derived Products must be withdrawn from sale.
